*JULY 2006*

**DEPARTMENT OF REVENUE & CUSTOMS**

**Ministry of Finance**

**Royal Government of Bhutan**

## FOREWORD

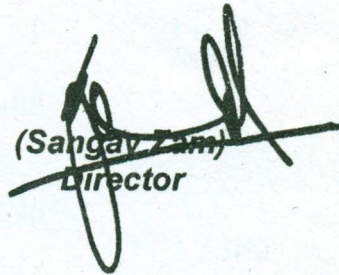

The Bhutan Trade Statistics (BTS) is an annual publication of the Department of Revenue & Customs, Ministry of Finance. The publication contains the external (Import & Export) trade statistics of the country including the trade in electricity with India for the year 2005.

The Bhutan Trade Classification (BTC), an eight-digit level commodity classification and coding nomenclature is used for the compilation of BTS. The BTC is based on the Harmonized Commodity Description and Coding System generally referred to as Harmonized System (HS), of 1983 with 2002 amended version implemented by the World Customs Organization (WCO). For uniform application and efficient clearance, import and export of commodities/items is classified and coded as per the BTC. For easy reference, the trade statistic document is compiled based on section, chapter, headings, sub-headings and item code.

The BTS has been generated from Bhutan Automated Customs System (BACS), a computerized system for recording trade transaction developed by the Department of Revenue and Customs.

We hope that the BTS will provide the necessary information to enable various agencies engaged in producing economic indicators and other reports on national accounts statistics.

We extend our sincere appreciation to the traders, customs clearing agents, the customs field offices, computer section, BACS co-ordination section and public information service of the Department for their contribution and co-operation in bringing out this publication successfully.
