

**BHUTAN TRADE STATISTICS  
FOR THE YEAR 2009**

**APRIL 2009**

**DEPARTMENT OF REVENUE & CUSTOM**  
Ministry of Finance  
Royal Government of Bhutan

## FOREWORD

The Department is pleased to present the Bhutan Merchandise Trade Statistics for the year 2009. The Merchandise Trade Statistics records goods traded between Bhutan and the rest of the world. It is an official source of information about Bhutan's imports, exports and balance of merchandise trade including trade in electricity. As a leading economic indicator and a major component of the Gross Domestic Product, the statistics provide critical information to a wide and varied group of users in the public and private sectors.

This publication has been compiled based on eight digit Tariff lines of Bhutan Trade Classification, Customs Tariff and Sales Tax Schedule 2007. This publication provides opportunity to examine export and import volumes from individual countries by commodities. Further, in this publication there is a new chapter recording the figure on total volume of goods traded by checkpoints under the Regional Offices. Since the trade in electricity is not processed through customs checkpoints, such trade is now recorded separately under new chapter.

The Department would like take this opportunity to acknowledge the assistance and cooperation received from all the taxpayers, individuals, Customs Clearing Agents and employees of the Department associated with compilation and publication of this issue.

While this office will continue to strive with available resources, to provide accurate, high quality statistics in years to come, we also look forward to your valuable comments and suggestions for improvement on such future publication.
