6.3 Recording of Expenditure

6.3.1 All financial transactions including the value of items of In-Kind assistance shall be incorporated in the accounts through entries in the prescribed books of accounts.
Incorporation of expenditure in the accounts of the Government shall be undertaken by the accounting units by keeping of books under the principles of double entry accounting. The essential books to be maintained by the accounting units and the process of recording transactions in those shall be guided by the following procedures:

1. **Cashbook (Form FAM – 5.1)**
   Except for the officers holding permanent or temporary advances, all Government officers, who are authorised to receive and/or draw and disburse Government moneys, (referred to as Drawing & Disbursing Officers in these rules) shall maintain Cashbooks in form FAM–5.1.

1a. **Maintenance of Cashbook:**
   Under the present computerized accounting system, Cashbooks are automatically updated by the system without any manual interventions.

   a. All monetary transactions get entered in the Cashbook as soon as they are punched in the computerized accounting system and transactions approved.

   When the monthly closing is done for the transactions in the system, the system cashbook gets closed for the month and the cash and bank balances get carried forward to the next month. However, when the transactions are closed for the year, all books of accounts will get closed and the system will bring forward only the cash balances as the opening balance in the cashbook of the new fiscal year. Thus the accounting units will ensure the compliance of the following:

   i. The closing bank balance at the end of a fiscal year shall not be brought forward in the next fiscal year.

   ii. For externally funded projects, any fund release balance at the end of the fiscal year need not be surrendered to the DPA and the same should be allowed to lapse. However the Agencies are advised not to seek releases more than the required amount so as to avoid release lapses.
b. The Cash balance at the end of a fiscal year (as on 30th June or Last working day of the Fiscal Year) shall be brought forward in the next fiscal year and the same shall be remitted to the DPA within July (1st month of the next fiscal year) itself in the form of cash warrant/demand draft and bank transfer in cases of missions, embassies and consulate offices abroad. While surrendering the closing cash balance, the budgetary bodies should provide LC/PLC account number and FIC (FIC-wise breakdown, if more than one FIC is involved) in the forwarding letter.

Note-1: Bank charges for preparing Cash Warrant/Demand Draft of the closing cash balance shall be met from the closing cash balance amount and charged to relevant Object Code in the month of June itself.

Exception – 1. The closing cash balances of the Embassies, Missions and Consulates abroad at the end of a fiscal year shall be brought forward in the next year. Budgetary releases for the next fiscal year to such agencies shall be made in full without adjusting the closing cash balances but the Missions, Embassies and Consulates abroad shall surrender the closing cash balances to DPA through a Direct Transaction (DT) from their LC accounts held in BoBL, Thimphu within July upon receipt of first quarter fund release as follows:

i. To treat the surrender of prior year closing cash balance in July
   MRP: Payments to DPA (OBC 89.13) Dr.  
   Cash                   Cr.

ii. Upon authorizing BoBL to transfer from LC to BFA *(to re-instate cash balance in PEMS)*
   Cash A/c   Dr.
   Bank       Cr.

d. The total of the Cashbook which shall be automatically calculated by the system shall be confirmed on a daily basis.
e. At the end of each month, the cash balance in the Cashbook shall be physically verified and a signed and dated certificate to that effect shall be recorded as:

“Certified that the cash and cheques available in chest has been actually physically verified by me and the total amount of cash and cheques in the chest was found to be Nu.xxxx.xx (amount in words), which agrees with the balance shown in the Cashbook.”

f. In the verification of cash in chest, if any discrepancy is noticed between the balance arrived at in the Cashbook and the actual cash found in the chest, the instructions contained under Section 1.7 under Chapter I shall be followed.

g. Correction of entries in the Cashbook, if required, shall be made by reversing the entry and making a fresh correct entry giving cross-references in the original entry, the reverse entry and the new entry. The DDO shall attest every such correction and invariably date his initials in the vouchers. The accounting unit shall not be able to use erasures, correcting fluids or overwriting an existing entry in the Cashbook as it is system generated.

h. Unless otherwise sanctioned specially by the Head of Office, a Government officer who handles Government money shall not handle in his official capacity, money which does not belong to the Government.

Note – 1. Where, under any special sanction, a Government officer is allowed to handle, both Government and non-Government moneys, separate cash boxes and sets of accounts records shall be maintained for each. The Government money and the accounts records thereof shall be kept entirely separated from the non-Government money and the accounts records thereof.

i. The system will maintain separate Cashbooks and sets of accounts records in respect of each of the bank accounts.
j. The Cashbook shall be treated as a book of prime entry for recording of all transactions in cash and through bank. The Cash and Bank columns of the Cashbook shall be treated as equivalent to Cash A/C and Bank A/C respectively.

k. The entries in this register will be made as and when transactions occur, strictly by date and order in which the transactions are carried out.

l. A suitable narration shall be recorded under each entry. The entries shall appear as follows:

Transaction: Receipt of a Budgetary Release order:
Entry in the Debit (Receipt) side of the Cashbook:
“To Budgetary Releases A/C. (Bank Column)
Rct.code…/…/…./.
(To record the receipt of release order No…….. dated…….)”

Underlying principle of double accounting:

Entry in the Credit (Payment) side of the Cashbook:

“By Current Exp. A/C.
Exp.code …/…/…./14.01
(To record payment to M/s…… against bill No….. dated….)”

Underlying principle of double accounting:

Current Exp. A/C. Dr.
Cash or Bank A/C. Cr.

m. Other than the situation described in paragraph (n – i) below and except for Releases received from the DPA, all receipts of cash and cheques shall get recorded in the Cash column on the Debit side of the Cashbook against the proper Head of account. Deposits of such cheques or cash in the Non-Revenue Receipts & Deposits Account or Refundable Deposits Account shall get recorded in the Cash column on the Credit side of the Cashbook.
n. An authorised and recorded expenditure can be cancelled only before the actual disbursement of the amount or on receiving back the disbursed cash, the original non-cashed cheque or a cheque equivalent to the payment made.

i. In such circumstances, the original entry of the transaction shall be reversed by making a new entry in the Cashbook. The amount shall be entered in the Bank column only if the original non-cashed cheque is received back. The original non-cashed cheque shall be the basis for making this reverse entry.

If the amount is received back in cash, or a cheque of equivalent amount, the entry shall be made in the Cash column by issuing a non-revenue receipt.

ii. A note of the cancellation shall be recorded in the disbursement voucher giving a reference to the new entry.

iii. The original non-cashed cheque shall be cancelled and defaced. An entry of the cancellation of this cheque shall get updated in the Cheques Issued Register.

2. Journal book (Form FAM – 5.2)

Journal books shall be automatically maintained by the system to record the transactions undertaken through the journal vouchers.

c. Each entry in the Journal book shall be followed by a proper narration explaining the reason and background of the entry.

d. Each entry in the Journal book shall be attested by the Approving officer if maintained manually also.
3. **Ledger (Form FAM – 5.3)**

The accounting system will automate the Ledger as per FAM-5.3. The Ledger shall be maintained for segregating or grouping of receipts and/or expenses transactions under broad heads of accounts.

The accounting system will pick up the ledger balances for the preparation of monthly Receipts & Payments Statements.

a. Separate Ledgers shall be maintained in the system for each of the bank accounts operated by an office.

b. Each of the approved cash, bank and journal transactions recorded in the cashbook or the journal book shall be entered in the Ledger under the respective broad head of account mentioned in the cashbook and journal book respectively.

c. The posting of transactions in the Ledger shall be automatic by the system and the balance under each account head shall be arrived at simultaneously with each entry.

d. The year ending closing balances under Advances, Recovery – Remittances and all Suspense broad heads shall be carried forward to the next year in the Balance column to maintain continuity of the unsettled accounts. The balances shown in the column “Cumulative balances” against these heads in the Receipts & Payments Statements shall thus agree with the Ledger balances.

4. **Sub-ledger (Form FAM – 5.4.)**

Depending on the number of transactions under a bank account, separate Sub-ledgers or separate sections of Sub-ledgers shall be assigned to each of the broad heads of accounts except for opening of sub-ledger accounts by object codes under individual broad heads of accounts, budget activities or suspense items in accordance with the rules under Chapter VIII and IX.
The Sub-ledgers shall be the basis for the monthly Expenditure Statements and other schedules. These shall be automatically maintained by the computerized accounting system as follows:

a. Separate sets of Sub-ledgers shall be maintained in respect of each of the bank accounts operated by an office.

b. Each of the approved disbursement and journal vouchers shall be entered in the appropriate Sub-ledger account wherever maintenance of Sub-ledger accounts has been prescribed in the rules.

g. The year ending balances in the Sub-ledger accounts falling under the broad heads mentioned under paragraph 3(e) of these rules shall be carried forward to the next fiscal year.

6.4 Supporting Books at the Accounting Units

6.4.1 Apart from the memorandum records mentioned in relevant sections, the accounting units shall maintain the supporting books of accounts as mentioned below. However if such supporting books are not automatically maintained by the system, the agencies will have to maintain them manually.
1. **Bills Inward Register (Form FAM – 4.2)**
   Maintenance of this register shall be conducted in accordance with the provisions under rules 5.6.1 and 5.6.2.

2. **Chequebook Register (Form FAM – 1.2)**

   iv. Initial repairs to newly acquired properties;
   v. Restoration of previously abandoned or destroyed properties for bringing them into use;
   vi. Repairs and maintenance of properties during their construction.

b. Maintenance works shall comprise of:
   i. Routine repairs and maintenance works;
   ii. Remodelling, improvements, replacements or reconstructions which do not result in an increase in the value of existing properties, provided that the particular work is not a component of an original project or work and the work does not involve any acquisition of land.

7.1.2 Original and maintenance works shall be classified as Capital and Current Appropriations respectively.

7.1.3 All works, whether original or maintenance shall be initiated only against an approved budget appropriation.

7.1.4 Unless otherwise specifically mentioned, all works shall be initiated in accordance with the PRR, only after obtaining Administrative Approval & Financial Sanctions and proper Technical Sanctions.
7.1.5 All Budgetary Bodies shall ensure that the works are executed and completed within the stipulated time and within the approved appropriations in accordance with the PRR and other prevailing laws, rules and procedures.

7.1.6 For works to be financed from external grants or borrowing, the rules and procedures prescribed by the RGoB shall be followed, unless otherwise agreed.

7.2.2 The Head of Office shall be responsible to take all such reasonable actions, to which he is competent to, for timely completion of the work as well as to avoid cost overruns.
7.3 Execution of Works – Pre-requisites

7.3.1 Approvals and Sanctions

7.3.1.1 An appropriate competent authority of the administrative Ministry/Department requisitioning a work shall issue an Administrative Approval and Financial Sanction (AA&FS). Such an approval shall be based on detailed estimate along with architectural and engineering drawings, where applicable.

7.3.1.2 A competent technical authority shall issue Technical Sanctions (TS) for all works.

7.3.1.3 The TS shall be based on the following conditions:

a. Drawings, designs and specifications including detailed estimates.

b. The drawings, designs and detailed estimates shall be site specific and based on site conditions.

c. Estimates of all works shall be in accordance with the current Bhutan Schedule of Rates (BSR). In the absence of any specific item of work in the BSR, a fresh analysis of rates shall be prepared based on the prevailing market rates and submitted for the approval of the competent authority.

d. Before according TS, the sanctioning authority shall be satisfied that no material deviations from the whole project as prepared for the purposes of the AA&FS are anticipated.

e. TSs may be accorded to components of a whole work provided that a specific amount corresponding to the component is mentioned clearly in the AA&FS.

f. The amount of TS shall be within the amount specified in the AA&FS.
g. Provided that the conditions at (i) under this rule are fulfilled, a fresh estimate shall be prepared and a Revised Technical Sanction issued when, during the course of executing a work, it transpires that the actual expenditure on a work is likely to be in excess of 10% over the amount in the previous TS. The Revised TS shall exhibit the quantities of items or work and amounts sanctioned in the original estimate and those estimated to be required.

h. While executing a sanctioned work, if some extra or additional work beyond the scope of the sanctioned work is considered necessary, and if the technical quality of the sanctioned work is not contingent upon undertaking such additional work, a Supplementary Technical Sanction shall be issued provided that the conditions at (i) are fulfilled.

i. The issue of a Revised or Supplementary TS shall be subject to the availability of Budget appropriation and issue of a Revised AA&FS.

7.3.1.4 In all cases, the Head of Office shall issue an order for commencement of work on receipt of which, a contractor, Supervising and Site Engineers shall start actual execution of a work.

7.3.1.5 Unless otherwise specified, the AA&FS for a work shall be deemed to have lapsed in case the work is not commenced within twelve (12) months from its issue.

7.3.3.2 In case of works costing more than Nu.0.10 (point one) million, the contracts shall generally specify that amounts shall be payable at such times as agreed between the parties or at prescribed intervals coinciding with the physical progress of the work.

7.3.3.3 Generally, all materials required for the construction shall be supplied by the contractor and the cost included in the respective item rates. When some of the materials for construction are supplied by the Budgetary Body for the sake of ensuring quality, the following procedures shall be followed:

a. When the work is tendered out, the tender document shall specify the items that will be supplied by the Government and the bidders should be instructed to exclude the cost of those materials from the rates to be quoted.

b. The value of materials issued by the Government shall be booked to the work, and the contractor shall not include the cost of such materials in his bills.

7.3.3.4 The price adjustment resulting from rise and fall in the cost of labour and/or materials shall be as per clause 6.3.2 of PRR.
7.3.3.5 Should price variations occur during the period of time extension, it shall be applicable only under force majeure conditions or where such time extension has been granted in the interest of the Government.

7.3.3.6 Except for cases of advances, contractors/suppliers shall be advised to show quantities and amounts distinctly against each item of work/supply in the bills in a cumulative form.
