MoF/DNB-Budget Call/2022-23/347

December 30, 2021

### Budget Call Circular for Financial Year (FY) 2022-23

In accordance with Clause 23 (b) and 45 of the Public Finance Act 2007 (PFA) and Section 3.2 of the Budget Manual, Financial Rules and Regulation (FRR) 2016, the Ministry of Finance hereby issues the Budget Call Notification for FY 2022-23.

Given that the FY 2022-23 is the last year of the 12 FYP and considering the effective containment COVID-19 measures including the successful vaccination coverage of more than 90% of the eligible population, the resource envelope has been determined based on the current state of our economy, estimated domestic revenue, balance of committed grants, 12 FYP Plan revised outlay, changing priority and the COVID-19 containment protocols.

With the discontinuation of the budget ceiling at the agency level from FY 2021-22, the heads of the Ministries and Agencies are reminded and encouraged to lead and engage closely in the budget preparation process for effective and efficient prioritization of programs and activities, allocation of resources and greater accountability. Such efforts will also ensure that the ongoing policy initiatives and other strategic priority programs are adequately captured and sufficiently funded. Any insertion of new activities and programs after submission of the budget proposal shall be based on the approval and directives of the Lhengye Zhungtshog.

Further, in order to ensure that the scarce financial resources are effectively utilized with accountability, annual budget must be tied to results and outcomes as specified under the General Guidelines.

This Budget Call Circular delineates the macro-economic outlook, the resource envelope, budget outlay and guidelines for preparation and submission of the budget proposals for FY 2022-23.

1. Macro-Economic Outlook: With the economy gaining momentum from the end of first quarter of 2021 supported by successful vaccination and continued fiscal support, there has been improvement in the industrial production and international trade. As such, the economy in 2021 is projected to grow at 3.3 percent. However, the risk of new infections with the outbreak of Omicron in the region may slow down the recovery than anticipated in the medium term impacting growth and government revenues.

- 2. Resource Envelope: The Resource Envelope estimated for FY 2022-23 is Nu.55,240.376 million, of which Nu.36,368.270 million is estimated from domestic revenue, which indeed is forecasted at higher side and Nu.18,872.106 million in the form of grants.

With the growth of current expenditure outstripping the increase in domestic revenue, rationalization measures adopted in FY 2021-22 will be continued to ensure that it is maintained within the domestic revenue. However, should the domestic revenue performance improve, the rationalization measures will be lifted immediately.
- 4. Fiscal Deficit: Based on the projected resources and expenditure, the fiscal deficit for the FY is estimated at Nu. 15,678.933 million, which is 7.54 percent of the GDP. The average fiscal deficit for the Plan period is expected to be around 5 percent of the GDP and shall be financed through concessional external and domestic borrowings.

The budgetary bodies are required to prepare and submit budget proposals through the online MYRB system (<a href="www.myrbpems.bt">www.myrbpems.bt</a>) and shall follow the general and specific guidelines prescribed in the Annexure I. Further, to ensure optimal allocation and utilization of the scarce public resources, all the budgetary bodies are necessitated to submit the write-up or justification for each activity/sub-activity as per the prescribed format (Annexure III) along with the detailed cost estimates and necessary supporting documents to the Department of National Budget (DNB) with a copy to Gross National Happiness Commission Secretariat (GNHCS) and the Government Performance Management Division (GPMD), Cabinet Secretariat.

The budget proposal shall be completed in all respects and take into account all the foreseeable factors before submitting to DNB on or before March 15, 2022.
